## USEFUL SENTENCES

I'm a sun worshipper so summer is by far my favourite season.

In summer, when it's humid, I get all hot and bothered and I can't stand it.

I'm not a massive fan of sunbathing so I tend to stay out of the sun.

I once got sunstroke and it was awful so I stay in the shade now.

More often than not, it is quite overcast in my hometown.

I'm not keen on gloomy days when the sky is full of clouds.

I know it sounds weird, but I love thunderstorms with thunder and lightning.
