| PHRASE                                                                                                              | MEANING                                                |
|---------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------|
| To lose your temper                                                                                                 | To become very angry                                   |
| I very rarely lose my temper nowadays; I lost it much more when I was younger, but I have learnt to control it now. |                                                        |
| To try/test your patience                                                                                           | Something that makes it difficult for you to stay calm |
| When I am late for an appointment and I get stuck in traffic, it really tests/tries my patience.                    |                                                        |
